New for 2010 – Genuity Roundup Ready 2 Yield from Syngenta Seeds, NK Brand

As a leader in corn and soybean genetics, Syngenta Seeds, NK[®] Brand, continues to collaborate with key technology partners to offer Canadian growers the best options for maximizing yield and performance.

Great news – Syngenta is pleased to announce the addition of Genuity[™] Roundup Ready 2 Yield[™] technology to the NK Brand portfolio. This announcement helps to complete the most comprehensive soybean line-up available in the market. “Syngenta has always offered high yield varieties, and this latest development will allow us to continue to give growers the most advanced varieties with leading-edge technology,” explains Ron Taylor, Marketing Manager for Syngenta Seeds Canada. “As part of the Syngenta Seeds commitment to agriculture, we are always looking for opportunities to increase our seed portfolio and the options available to our Canadian growers.”

NK Seeds has even more to offer soybean growers this season with Conventional varieties, Soybean cyst-nematode, AMST[™] (Aphid Management System), traditional Roundup Ready[®], and now Genuity Roundup Ready 2 Yield from NK. For corn growers, NK Brand delivers high-performing corn hybrids with outstanding Agrisure[®] trait technology.

Syngenta is one of the world's leading companies with more than 24,000 employees in over 90 countries dedicated to our purpose: Bringing plant potential to life. Through world-class science, global reach and commitment to our customers we help to increase crop productivity, protect the environment and improve health and quality of life. For more information about us please go to www.syngenta.com.
