

Take a stand against key seed and soil-borne diseases

Vibrance® Quattro is the all-in-one fungicide solution for your cereals that provides extensive, broad-spectrum disease protection, including excellent control of *Fusarium* and *Rhizoctonia*. And with its convenient pre-mix formulation, Vibrance Quattro makes application quick and simple. Put up a united front against early-season threats with Vibrance Quattro.

- Four systemic fungicides provide extensive disease protection against the broadest range of diseases, including superior control of *Fusarium graminearum* and *Rhizoctonia*
- Protects against smuts in cereals, including true loose smut in barley
- **NEW!** Registered for control of seed-borne *Alternaria*
- The Rooting Power™ of Vibrance delivers stronger roots that take full advantage of soil nutrients and can better defend against soil diseases
- One use rate for all crops (mL/kg of seed)
- No closed system required for on-farm use

For use on:

Barley, Spring wheat, Durum, Winter wheat, Oats, Rye and Triticale

Evaluation of control of seed-borne *Fusarium graminearum*

Untreated

Vibrance Quattro

Raxil® PRO

2 replications, 10 sub reps - 325 mL per 100 kg seed. Syngenta Honeywood Research Facility, 2015

*23% *Fusarium graminearum* and 19% *Fusarium* spp. infection was used for demonstration purposes. Syngenta does not recommend use of seed with these infection levels.

Performance evaluations are based on field observations and Syngenta field trial data over a limited geography and time. Data from multiple years should be consulted whenever possible. Individual results may vary depending on local growing, soil and weather conditions.
